Fishwest will sell your items for you on eBay as a consigner and you will earn valuable credit to be used at Fishwest. Your credit will be the final sales price less any fees charged by eBay and PayPal. Fishwest does not charge any fees for this service.

We list all items with no reserve and once an item is started, it cannot be ended. We have found that listing items with no reserve results in better sales prices, meaning more value to you. Ending listing early reflects badly on Fishwest and our business on eBay.

Notes: Store credit is not redeemable for cash. Bidding on your own item is not allowed and your item will be forfeited for this kind of activity.
